1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claim 1 is rejected under 35 U.S.C. 102(a.) as being clearly anticipated by Braithwaite et al.

Braithwaite et al disclosed a VCO (Figs. 2, 3 and 6; page 6, paragraphs 81, 82 and 87), comprising at least a first PMOS device (page 7, claim 11) having a strained-silicon layer (title; abstract; page 5, paragraph 70; page 6, paragraphs 81, 82 and 87).

3. Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 10-20 are allowed.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Mis whose telephone number
